

GARAGE DOOR INDICATOR

Monitors if your door is Open or Closed - Remotely

- *Tells you if your garage door is open or closed*
- *Ensures Safety, Peace of Mind and Security*
- *Security for the largest door to your home*
- *Works with any Up and Over or Sectional Overhead Garage Door*
- *Monitors up to 4 Garage Doors from inside the house*
- *When light flashes RED, door is open*
- *Fast, easy installation; no tools needed*
- *Signals to any room in the home within its operating range*

Features:

- The standard kit (SEC9760) includes - one garage door sensor with battery, one receiver, one transformer, fastening strip and instructions
- Universally compatible with all Up and Over and Sectional Overhead Garage Doors – not suitable for side-hung or roller doors.
- Receiver operates from anywhere in your house within its operating range (up to 100 metres in line of sight and up to 70 metres from within the house)
- If you have more than one garage door, just add more sensors (SEC9770)
- The receiver can monitor up to 4 doors, flashing a RED light whenever any door is open.
- Receiver can be moved to another room in the house to monitor day and night.
- Will not interfere with and is not affected by interference from neighbours garage doors fitted nearby.

Easy To Install:

- Mount sensor to garage door with fastening strip (*included*).
- Plug transformer cord into receiver.
- Plug transformer into any standard household outlet.
- Place receiver on table or countertop or mount on wall.
- Peace of mind knowing your garage door is closed
- When light flashes red, door is open
- When light is green, door is closed
- Fast, easy installation. No tools needed

Standard Kit £59.95 + VAT

Extra Sensor £34.95 + VAT
